

EXECUTIVE PROTECTION

EXPERT ADVICE. EXPERIENCED, HIGHLY TRAINED BODYGUARDS

Allow Keypoint to assess the security of your principal's daily routine and lifestyle, and we will provide procedures, devices and people to minimise any risk. Discreetly.

Perhaps you require a single well trained, licensed 'minder' – female or male - to keep an alert eye on your principals while they go about their daily business without anxiety or distraction.

Or do you need an integrated team of bodyguards and other trained and licensed professionals – static guards at home or office; security chauffeurs working smoothly together?

We can train your people, or provide our own, to undertake routine counter-surveillance and be aware when outsiders are watching you.

Our mature experts will give briefings to principals, their family members and their staff on how to minimise risk, how to react to the unexpected threat, and how to use the sanctuaries and procedures that we may recommend.

So, whether:

- Arriving at the airport –
- On the move in cars –
- Quietly at home –
- Busy at the office –
- On foot or shopping –
- Travelling overseas –

LET KEYPOINT TAKE THE ANXIETY OUT OF YOUR LIFE
AND ALLOW YOU TO CONCENTRATE ON LIVING LIFE
AND DOING BUSINESS THE WAY YOU DO IT BEST.
